VINTAGE CONDITIONS

2014 had a cold start to summer, followed by a heatwave in January/February then unseasonably heavy rainfall. This led to some of the smallest harvests on record, but the quality of the fruit was exceptional, and what was sacrificed in yield has been made up am-ply in quality.

WINEMAKING

Picked in the cool of the morning and open top fermented. Hand plunged 3-4 times a day to extract rich color and a complex mid-palate. Matured for 13 months in a combination of lightly toasted French and American barriques.
